Graduate AI Researcher | Product Manager in data-heavy B2B applications

## Professional Experience

**University of Hawaii at Manoa**, *Graduate Researcher, Honolulu, HI* *August 2025 – present*

- Took first place on NeurIPS 2025 Data Curation for Visual Language Reasoning Competition
- Research: vision-language-action models (VLAs) for humanoid locomotion and manipulation
- Research: AI foundation models for healthcare for Hawaiian population
- Teaching Assistant: Computer Methods for Engineering. Led office hours for a class (55 students), graded homeworks, midterms and finals, provided help over email and ad-hoc virtual meetings.

**Video Docuta**, *Founding Product Manager, San Francisco, CA* *July 2023 – August 2025*

Led product development for an early-stage video monitoring company, transforming a concept into MVP.

- Secured 3 enterprise pilots, driving early adoption and market validation
- Scaled the team from inception to a 7-member cross-functional group

**SmartX**, *Senior Product Manager, Austin, TX* *April 2021 – June 2023*

Asset Management Platform; Fintech

Led product development of API of Market Data and Billing applications within the asset management platform as AUM increased from \$14B to \$27B

- Grew scalability of Market Data microservices, expanding support from 80k to 1+ MM accounts
- Drove the introduction of the billing application into the platform, accelerating the payout process to financial advisors and model managers from the 2-week industry standard to just 3 days
- Initiated and executed development of UI component library speeding up front-end development by 20%

**LogicMonitor**, *Product Manager, Austin, TX* *January 2020 – December 2020*

Infrastructure monitoring platform

Owned tactical and strategic planning for network topology application and introduced new products (UX monitoring), directly affecting the company revenue and increasing it from \$70 to \$120 MM

- Managed technology partnerships that resulted in product exposure to 80% of Fortune 100 companies
- Reduced infrastructure costs by 10% by identifying and addressing product misuse
- Led an initiative to use Looker and Pendo analytics platforms for data-informed product discovery, leading to a 17% increase in feature adoption

**Eagle Eye Networks**, *Product Manager, Austin, TX* *January 2019 – January 2020*

Video Monitoring platform

My contribution averaged 15 released epics per quarter, resulting in 135% growth of connected cameras.

- Tested new epics with MVPs and compiled product analytics using Amplitude, and log file analysis
- Introduced two new product offerings (white labeling and mobile cameras) into the platform to expand the total addressable market by 40% and accelerate the growth of connected devices on the platform.

**Gurtam**, *Product Manager, Minsk, Belarus* *March 2016 – December 2018*

Geolocation monitoring and fleet management platform

Owned and executed the roadmap for mobile applications of the geopositioning platform.

- Grew mobile applications MAU 2.85 times through product development and partnerships
- Integrated iOS and Android applications with API of map service providers (Google Maps, TomTom, Here, Yandex) adding 5.5% percent to the revenue
- Established user analytics using Amplitude, and used findings to increase feature adoption by 20%

**Vizor Games**, *Associate Product Manager, Minsk, Belarus*

*January 2014 – March 2016*

Developer and publisher of social games

Managed API integrations on five web and iOS social games

- Increased organic installs by 15%, getting 20+ game featurings on Facebook - each resulting in a 2-5x increase in weekly in-game currency spending - and helping win Facebook's *Best New Game* and *Best Web Game* awards
- Defined and implemented integrations roadmap, resulting in a 5% increase in in-game currency spend.

## Volunteering

**'Iolani**, *Co-authored and helped lead a workshop on humanoid robot*

*2026*

**ADPList**, *Product Management Coach*

*2024 – 2025*

**Product Camp**, *Co-organizer, selected speaker*

*2017 – 2025*

## Education

**University of Hawaii at Manoa**, *Honolulu, Hawaii, US*

*2025 - present*

PhD in Computer Science

**American University in Bulgaria**, *Blagoevgrad, Bulgaria*

*Class of 2014*

**University of Utah**, *Salt Lake City, Utah, US*

BA in Business Administration, Minors in Computer Science, Mathematics
